Green Club is initiating a reuse and recycle campaign for technology at LRHS. Students and parents are encouraged to bring their used computers, cell phones, screens, laptops and ipods to room 212. We also ask for used batteries to be left at the office in our battery recycle bin. These will be delivered to the GSLR municipal office for recycling. This project is in concert with the WE campaign ZINC SAVES LIVES. **JOIN THE GREEN SIDE!!!**

Make your request for help from a Quebec teacher from the LEARN website <http://learnquebec.ca/en/services/tutorials.html>. The short video will help you get a better idea of how this FREE service operates.
